

RESOLVED--

IF WE COULDN'T BAKE THE BEST LOAF OF BREAD THAT IS SOLD IN TOWN WE'D GET DISCOURAGED.

BUT we've found no occasion for discouragement on that account. The thing that does worry us is the fact that some people—people who think that they appreciate good baking, still remain contented with bread that does not compare with ours. It is to these people that we extend an urgent invitation to try just one loaf of our BUSTER BROWN bread. You'll be glad you accepted the invitation.

IMPROVEMENTS TO START IN A MONTH

Popular Dry Goods Company Will Spend \$150,000 in Enlarging Building.

Preliminary work on the \$150,000 remodeling of the Popular Dry Goods company's building will start within the next month. A. Schwartz, president of the company, will sail from London on Sept. 1 and is expected to reach El Paso about the middle of the month. As soon as he returns the first work on the complete remodeling of the old Masonic temple building will be started. The main entrance will be changed to the middle of the San Antonio street front of the main building and the present entrance will be converted into display windows. A marble front will also be added to both the Mesa and San Antonio street sides of the building.

To Add Fourth Floor. The improvements of the building include the addition of a fourth floor on the main building as soon as the Masonic lodge vacates the building for the new Missouri street temple. The second entrance will be completed as soon as the framework is poured, in order that the old building may be vacated and the contractors can start work on it as soon as possible. In addition to the additional story on the present temple, the annex on the east is to be a six-story building. A concrete and steel department store building erected by the company. The base for this part of the building will be excavated in order to give one full story under ground.

Bond Prepared For Postoffice Site. Bond to insure the delivery of the new postoffice site is now being prepared and will be delivered to deputy United States attorney S. Engelking at the federal investment company this week. This bond guarantees the government that the investment company will deliver the postoffice site on Mills and Stanton streets to the government for \$60,000, the price agreed upon by the government representatives and the attorney for the investment company.

Although the deed to the greater part of the postoffice site has been delivered to the government, it will be necessary to condemn a portion of the site which is owned by the G. H. & S. railroad on the northern side of the site. As soon as the bond is delivered the district attorney will start the necessary condemnation suit for possession of this part of the site. It is expected that the bond will be executed and the Central company guarantees to deliver the entire site to the government within a few days.

As soon as this bond is ready it will be delivered by R. E. Burgess, attorney for the Central company, to the government, secretary, who will turn it over to the government and receive the title in patent for the site.

The new postoffice location is on the corner of Mills and Stanton street, extending from the corner west to the alley adjoining the Grand hotel and north to the south line of the G. H. right-of-way.

Five tracts of Capulito district land have been exchanged by J. S. McClure, of Las Cruces, N. M., to J. M. Duthie, of El Paso, for 112 feet frontage on south Broadway in El Paso. The consideration was \$22,000 and the valley tract contains 22 acres of land near irrigation. The deal was made by Morrison, the land man.

The same agency has sold two lots in block 35, Government Hill, for George Meadows to J. C. Corral. The price was \$800.

City National Bank to Expand. At the expiration of the lease held by A. A. Kline on the room adjoining the City National bank, this bank will expand to take in all of the first floor of the City National building, with the exception of the part on the Sheldon block. The lease, which Mr. Kline holds, will run another year after which the City National will take possession and extend the banking hours to the south and east.

The "L" shaped store room now occupied by Kline's curio store. The expansion has been made necessary by the rapidly increasing business of the bank and a number of improvements will be made in the interior and the El Paso street front of the building.
